Chapter 4 Ecosystems And Communities Summary -
...May 03, 2011 · 4-3 Biomes A biome is a group of communities on land that covers a large area and is characterized by certain soil and climate. Within a biome, there may be microclimates. A microclimate is the climate of a small area that differs from the climate around it. Species may be found over a large or small area, depending on their tolerance. May 2th, 2024
